

Student Analyst at CM Biomass Trading

Do you have an interest in international commodity trading and want to get hands-on experience with execution of cargo operations and project management?

Are you looking for a company operating in a niche market with lots of responsibility and the potential to join the team full-time in the future?

Then this is your opportunity to join as fast-growing company operating as the world's biggest biomass trader.

The Department:

CM Biomass is a trading and logistics company, involved with sustainable biomass commodities used in the energy sector. As part of international commodity trading, CM Biomass works on optimizing and creating international trading opportunities.

This entails performing trade flow analyses, customer relationship management, logistics-optimization as well as driving the development of greener energy flows around the world.

About the job:

Upon joining the trading department, you will become part of our day-to-day activities and get the opportunity to have a direct influence on how the company continues its strong, consistent growth. Among many tasks related to project management and international cargo operations, you will be responsible for supporting and improving the following:

- Assisting our full-time traders with analyses and presentations
- Emerging market research as part of our business development projects
- Maintain overview of vessels, trade flows and trade data
- Customer relationship management
- Cost optimization of execution procedures
- Update information about delivery quantities
- Update and maintain storage quantities
- Cross-checking delivery quantities

However, the scope of your work and development in the organization may vary in accordance with your skills, personality, and interests.

You will join an exciting department of around 45 colleagues across the globe, and you will be given thorough training and introduction to the work that lies ahead. You can expect business travels from time to time with flexibility towards school studies.

Key Requirements:

You are expected to be in the process of finishing your last year of a bachelor's degree or at the beginning of a master's degree within areas such as Supply Chain Management, International Business or Economics. This is a job with good opportunities for a full-time position later on if you do well. We expect you to possess the excel in the following abilities:

- Full English proficiency both written and spoken. Danish proficiency is not a requirement but a plus
- Ability to work independently, disciplined and meet deadlines consistently
- Have good interpersonal skills and ability to maintain and create relationships with stakeholders
- Be a team player and like to assist others
- Excellent abilities and experience in MS Office (Excel, Word and Powerpoint)
- Possess good business acumen
